P-SQR

For nearly 22 years hands of experience in calibration lab software development, P-SQR has been providing calibration software solutions for STQC labs, power plant instrumentation labs and process industries instrumentation labs and some of branded calibrator manufacturers.

Proven Success:

Our Lab Calibration Management software SoftLAB 8, 9, 10 & 11 versions are running successfully in NABL labs across India and being used in high-performance organizations such ETDC, NAGMAN, FCRI, L&T, HAVELLS, etc.,

SoftLAB's user friendly task selection and implementation produces faster calibration outputs. Fine tuned calibration process provides accurate calibration of testing and field devices.

SoftLAB-Web has in-built intelligent uncertainty calculation methods and error calculation methods which completely eliminates man hours and human mistakes in fraction of seconds.
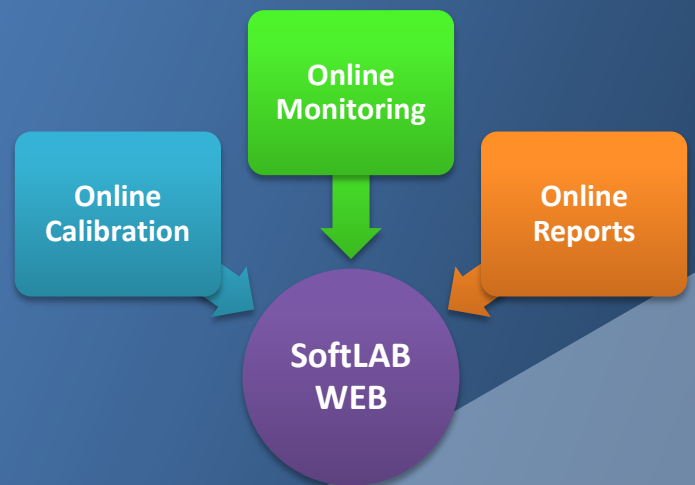

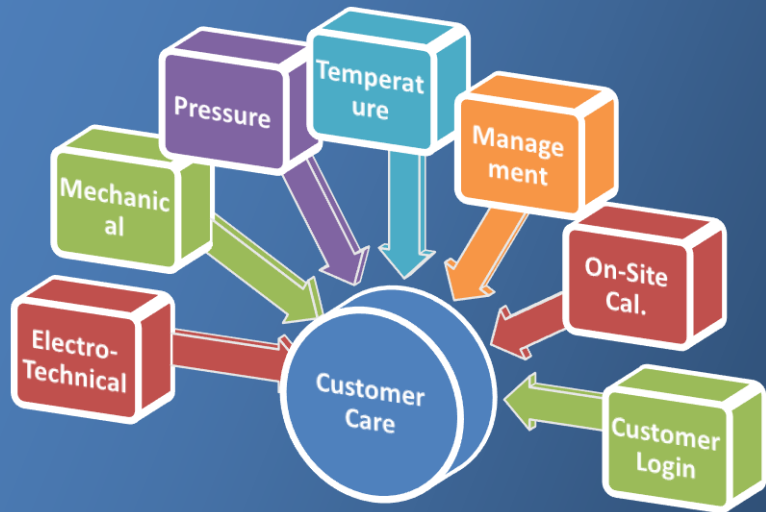

SoftLAB-Web has powerful database support to maintain complete track records of each device calibration for long time.

SoftLAB-Web performs faster report generation and provides statistical reports which helps to produce more results and throughputs to the lab. Statistical analysis reports helps for fine tuning calibration and equipment maintenance.

SoftLAB - Web provides a visual representation of calibration process undergoing in lab, calibration certificates generated over the globe which greatly helps the management to analyze various statistical data regarding calibration on their desktop. It also allows customer login facility which helps to visualize calibration certificate at their desk. E-mail alert for calibration dues to customers, makes the management to continue best relationship with their valued customers.

SoftLABWEB ®

Web based Calibration & Management Software

Complete solution for automating and managing calibration lab over the globe

SoftLAB's Standard Features

- ❖ User Login, Customer Login
- ❖ Customer Care, ET, Mechanical, Thermal & Pressure Lab Configuration
- ❖ SRF Entry, Device and Calibrator Configuration
- ❖ Department-wise Calibration modules
- ❖ Automatic Uncertainty Calculations
- ❖ ULR Management Module
- ❖ Automatic Report Generation
- ❖ QR Code Printing
- ❖ Uploading Reports To FTP Server
- ❖ Customer Login for Certificates View
- ❖ Statistical Reports
- ❖ Email Alerts for Calibration Due

Other SoftLAB Products:

- ➢ SoftLAB – 11.0.0 – Enterprise Edition
- ➢ SoftLAB - ETC
- ➢ SoftLAB - Energy
- ➢ SoftLAB - Uni
- ➢ SoftLAB - Web
- ➢ SoftLAB - Plant

P-SQR has extensive experience in executing customer specific projects. Hence if customer is looking for customized calibration software package for their

- ➢ In-house manufactured calibrators
- ➢ Dealership tie-up calibrators
- ➢ Calibration labs
- ➢ Multi-function Test Benches

P-SQR provides complete solution for their exact requirement with the guidance of our vibrant technical and software development team.

SoftLABWEB Enhances your calibration Lab and establishes it over the globe
